

The project consists of a grid-connected solar photovoltaic plant with an installed capacity of 140 MW. Voltalia is responsible for its design, financing, construction, operation and maintenance.

Albania marked a significant milestone in its energy sector with the inauguration of the Karavasta Photovoltaic Park, the largest solar energy facility in the Western Balkans.

At 140 MW in peak capacity, Karavasta is the biggest photovoltaic system in the region. It is about to begin delivering electricity to the transmission system in Albania. The largest photovoltaic ...

Albania has reached a major renewable energy milestone as Trina Solar delivers 140 MW of bifacial photovoltaic modules to Voltalia's Karavasta Solar Park, the largest solar installation ...

Albania has officially inaugurated the Karavasta Solar Park, now the largest in the Balkans, marking a significant milestone in the country's pursuit of energy independence and ...

The Ministry of Infrastructure and Energy of Albania received four applications for solar power projects with a combined capacity of 235 MW. A proposed unit in Fier, the country's ...

Trina Solar has delivered 140 MW of bifacial modules for Voltalia's Karavasta project, the Western Balkans' largest solar park, which is expected to power 220,000 households. Karavasta ...

Albania is advancing its renewable energy ambitions with a planned 50 MWp ground-mounted solar power plant in Belshi, central Albania. While initially slated for 2025, procurement ...

Albania's Ministry of Infrastructure and Energy has received expressions of interest from four companies looking to construct four solar projects with a cumulative capacity totaling 235 MW.

Earlier this year, the state-owned utility OSHEE announced plans for five solar parks, each with a capacity of up to 50 MW, across the regions of Fier, Berat, Dibra, Gjirokastër, and Fushë; ...
