

It consists of a six-axis robot and four pallet sorting machines up to six are optional). The robotic arm uses a special vacuum system to remove modules from the test area and store them in four or more ...

A vertical sorting machine is an automatic module sorter for sorting and sequencing of PV modules. The sorting machine supports flat and vertical sorting according to customer needs or panel powers. The ...

The Auto Solar Panel Sorting Machine is engineered to ensure accurate sorting of solar panels based on various parameters such as size, power output, and efficiency.

Explore the final steps of solar panel production. Learn how framing, sorting, and packing machines work and see the differences between manual and automated systems.

Robot automatically sorts the modules into designated pallets. Offers sorting configurations for either 4 or 6 module pallets. Compatible with both standard and glass-glass modules. Provides the flexibility ...

As the solar industry continues its exponential growth and pursues ever-higher efficiency and lower costs, the sophistication and importance of automated sorting systems will only continue to ...

Compatible with both automatic insert and flat release for PV module sorting; The clamping jaws of the grabbing units adopt a pneumatis insertion and clamping structure, which is reliable and does not ...

A vertical sorting machine is an automatic module sorter for sorting and ...

So, if you are looking for an advanced and reliable solution to streamline your solar panel production line, our Automatic Sorting System is the perfect choice.

An automatic sorting machine is a critical system installed at the final stage of a photovoltaic module production line. It is designed to automatically identify, analyze and classify PV ...

It consists of a six-axis robot and four pallet sorting machines up to six are ...

Argus has always remained in close contact with the production process and this makes it possible to analyze and develop new configurations of photovoltaic panels with new raw materials and to ...
