

Barbados home solar power generation system

Is Barbados a leader in solar energy?

Continue reading -> Barbados continues to maintain a leadership position in solar energy within the Caribbean. Building on a successful Renewable Energy Rider program which has seen 9MW of distributed solar PV installed, the electricity market has finally opened up to independent power producers (IPPs) to develop utility scale solar projects.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

What is the solar house project?

The Solar House Project is an initiative of the Ministry to create greater awareness of renewable energy and the benefits of using various energy conservation technologies for enhanced energy efficiency. The house has different kinds of insulation in the roof to act as a thermal barrier.
