

## **Can 5G solar container communication stations in the Bahamas be used**

NASSAU, BAHAMAS -- URCA has developed a draft "roadmap" to identify and address regulatory and policy issues essential for the deployment of 5G technology in The Bahamas.

GSOA welcomes the opportunity to provide comments to URCA regarding its Roadmap to enable 5G to be deployed in The Bahamas, as outlined in the following paragraphs.

The Utilities Regulation and Competition Authority (URCA) in The Bahamas released a public consultation on the demand for enhanced internet connectivity and 5G in The Bahamas.

Given that empirical sources have signaled the need for 5G services in The Bahamas, URCA's document lays out the framework to govern the technology.

The roadmap, currently open for public consultation, outlines the vision and strategy for the rollout of 5G services, aimed at boosting national connectivity and innovation.

Following this consultation, URCA will review all stakeholder submissions and publish a Statement of Results and Final Decision, setting out URCA's final policy position and the next steps ...

The draft roadmap outlines the key regulatory measures and supply-side considerations required for a market-led 5G rollout. It also describes spectrum needs, appropriate allocation ...

The Utilities Regulation and Competition Authority (URCA) has released a public consultation document outlining the roadmap for 5G deployment in The Bahamas. The plan focuses ...

CONSULTATION is being launched over 5G communications technology in The Bahamas. The Utilities Regulation and Competition Authority (URCA) released a consultation ...
