"Living in a loft or more raw space provides a certain level of ...

Well yes, a storage locker in the bathroom serves to be much more than just a piece of furniture. It is an epitome of a neatness and cleanliness all clubbed into a beautifully carved storage solution.

It is typically not a good idea to put galvanized steel in the bathroom as it is not corrosion-resistant and moisture in the bathroom could increase the rate of corrosion and rust. In humid environments, such ...

Choosing Lockers and Partitions That Lack Durability
Not Considering Germ Resistance
Building Lockers and Partitions That Aren't Reliable
Using Non-Sustainable Material
Not Accounting For Locker Noise Level
Overlooking Aesthetics
Ignoring Future Maintenance Costs
Making The Right Decisions
Too often, architects forget about the importance of the durability of locker and partition material. It can be easy to think that since these materials aren't exposed to the natural environment, their durability doesn't matter. However, many factors can affect the lockers or partitions and even reduce their physical appeal, such as graffiti and sc...
