

# Canadian solar energy storage 20kW inverter

Discover EP Cube, the modular home storage system with hybrid inverter up to 6 kW and LiFePO4 batteries from 6.66 to 19.98 kWh. Easy to install, with WiFi, IP65 and EV compatibility.

Built for Canada's diverse energy landscape, the EP Cube is fully compatible with local grid standards and performs reliably in extreme weather conditions--whether it's the heat of an Okanagan summer ...

Unlock true energy independence with the EP Cube, Canadian Solar's all-in-one, lithium-iron-phosphate (LiFePO4) storage system that's engineered for DIY simplicity, whole-home ...

EP Cube Wins Japan's Prestigious Good Design Award, Leading the Future of Home Energy Storage with Exceptional Design Today, Canadian Solar's residential energy storage system EP Cube stood ...

In 2022, we introduced our first residential energy storage system, EP Cube, a flexible and intelligent all-in-one solution designed to help people efficiently manage solar energy generation, residential ...

Whether you're adding battery storage to an existing solar array or building a new renewable system from the ground up, the EP Cube makes it simple to achieve safe, efficient, and flexible energy control.

The Canadian Solar EP Cube offers customers the most advance solar and battery inverter technology available. You can now retrofit any solar system to the EP Cube for whole home battery backup.
