

# China Southern Power Grid Southern Energy Storage Project

This document is the property of China Southern Power Grid (CSG) and contains proprietary information owned by CSG and/or its affiliations. The usage and disposal of this document shall be in strict ...

A new energy storage plant featuring sodium- and lithium-ion batteries has opened in China's Yunnan province. The energy storage station, operated by China Southern Power Grid, is ...

Chinese state-owned grid operator China Southern Power Grid has switched on the country's first large-scale lithium-sodium hybrid energy storage station, a 200MW/400MWh ...

It is a reserve project in the National Energy Administration's "Medium- and Long-Term Plan for Pumped Storage (2021-2035)". The planned installed capacity is 1,600MW and the estimated investment in ...

On May 25, China's first large-scale lithium-sodium hybrid energy storage station -- the Baochi energy storage station developed by CSG -- was officially put into operation in Wenshan ...

The facility supports more than 30 local wind and solar power stations, alleviating the impact of intermittent supply and facilitating the integration of high shares of renewables into the grid.

China's first large-scale lithium-sodium hybrid energy storage station, located in Wenshan, Yunnan province, is now operational. The station, run by China Southern Power Grid, ...

"China Southern Power Grid Energy Storage, the energy storage division of China Southern Power Grid, has commissioned a 10 MWh sodium-ion battery storage station in Nanning, ...

As the first to build a megawatt-level lithium battery energy storage station in China, CSG Energy Storage currently manages nine electrochemical energy storage stations, and has accumulated ...

China Southern Power Grid (CSG) announced on May 26 the commissioning of the Baochi Energy Storage Station in Wenshan, Yunnan province -- a national pilot project and the first ...
