How do solar salespeople get paid?

One of the ways solar salespeople are usually paid is by using the overall contract price model. Paying commission on the basis of the overall contract amount is also one of the most straightforward payment options that a majority of solar businesses use. But you should not that there are issues with setting up your commission structure this way.

Are solar salespeople paid on commission?

In the solar industry,salespeople are almost always paid on commission. The sales people that are paid commission are usually not placed on any fixed salary range. Most companies prefer to go this route rather than retain a lot of sales people on their employment list.

Should you sell more solar than is needed?

Solar reps may be tempted to sell more solar than is actually needed, so you may have to regularly ensure your customers' best interests are honored. While there is limited consideration for profitability in this model, the benefit to this structure is its focus on sales volume instead of profit per deal.
