

Domestic photovoltaic panels OEM to the United States

Which solar panels are made in the United States?

U.S. made solar panels include models from First Solar, Qcells (Georgia), Silfab Solar (Washington and South Carolina), Jinko Solar (Florida), and Canadian Solar (Texas and Indiana).

Who makes the most solar panels in the US?

First Solar is the largest manufacturer of solar panels in the US with a production capacity of 10.6 GW as of June 2025. It has two manufacturing capacities in Ohio and Alabama. Check out the top solar panel manufacturers in the US, such as First Solar, Hanwha QCELLS, Canadian Solar, T1 Energy, and Illuminate USA.

Where are solar panels made?

Leading U.S. solar panel manufacturers include First Solar, Qcells, Silfab Solar, Jinko Solar, and Canadian Solar's U.S. operations. Their factories in states like Ohio, Georgia, Texas, Florida, and South Carolina produce high-efficiency solar panels made in the USA that qualify for federal incentives.

Should solar panels be made in the USA?

However, some U.S. solar panel manufacturers still rely on imported materials, which may face tariff-related cost increases. For installers, sourcing solar panels made in the USA still offers more stable pricing and eligibility for domestic-content tax incentives.

A current list of U.S. solar panel manufacturers that produce solar panels for the traditional American residential, commercial and utility-scale markets.

Solar energy is a great way to cut down on power costs. In this article, we share the best American made solar panels across a wide range of price points.

The resurgence of American-made solar panels is more than a patriotic story--it's a strategic shift toward energy independence, job creation, and long-term sustainability.

For solar contractors working in this volatile environment, partnering with U.S. solar panel manufacturers is helpful. Using solar panels made in the USA may provide more consistent pricing, ...

Find the Latest Solar PV Projects Across the United States Gain exclusive access to our industry-leading database of solar PV projects opportunities with detailed project timelines and ...

First Solar: The leader in thin-film technology First Solar is the largest solar panel manufacturer in the United States, specializing in cadmium telluride (CdTe) thin-film solar panels. ...

When exploring the solar panel manufacturing industry in the United States, several key considerations emerge. First, understanding the regulatory landscape is crucial, as federal and state policies ...

Domestic photovoltaic panels OEM to the United States

This map provides information about all of the solar photovoltaic (PV) manufacturing facilities in the United States and how they contribute to the solar supply chain.

Discover the leading 20 U.S. solar manufacturers driving clean energy in 2025. Explore company info, specialties, and contact details.

Comprehensive guide to US solar manufacturing: capacity, major producers, supply chain analysis, and how to source American-made solar equipment in 2025.
