

The facility will produce 2GW of solar cells, 2GW of modules, and 1GWh of battery storage annually.

Egypt is looking to make a dent in its plans to generate 42% of power from renewables by 2030, with the Egyptian Electricity Transmission Company (EETC) on 12 September signing 25-year power ...

Egypt laid the foundation stone on Monday for a \$210m solar energy manufacturing complex in the Suez Canal Economic Zone (SCZONE), a project involving Chinese, Emirati, ...

The project, named ATUM Solar, is located in the TEDA Egypt industrial zone in Ain Sokhna. It covers 200,000 square meters and represents a total investment of \$220 million. The ...

The agreements include two Power Purchase Agreements (PPAs) for the construction of solar projects with a combined capacity of 1.2G gigawatts (GW) and 720 MWh (megawatt hours) ...

The agreement entails the collaborative development of a total 1.2-gigawatt (GW) solar power project coupled with a 720-megawatt hour (MWh) battery energy storage system. According to ...

Dubai-headquartered, MENA-focused renewable energy company Amea Power has announced the successful financing and the start of construction on a giant solar-and-storage project ...

The Egyptian Electricity Transmission Company (EETC) has signed a Power Purchase Agreement (PPA) with Scatec ASA, for a total capacity of 1,950MW Solar and 3,900MWh Battery ...

This new 1.2 GW project will be one of the largest of its kind in the region, significantly boosting Egypt's solar generation capacity and providing enough clean electricity to power hundreds ...

Designed with a planned capacity of 2GW solar cells, 2GW solar modules and 1GWh energy storage systems, the solar complex is scheduled to be completed in three years.
