

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. The 26.5 ...

Towards the beginning of this year, regulators in Estonia gave approval for its first-ever pumped hydro energy storage (PHES) plant, due to begin construction in summer 2024 following the ...

But here's the kicker - it's not just about energy storage. This project pioneers vehicle-to-grid (V2G) integration with Tallinn's electric bus fleet, creating what engineers call a &quot;bi-directional power ...

The commercial development and current economic incentives associated with energy storage using redox flow batteries (RFBs) are summarised. The analysis is focused on the all-vanadium system, ...

Vanadium Flow Batteries: These giants are the &quot;marathon runners&quot; of storage, perfect for Tallinn's long, dark winters. A 20MW system in the Pelgulinna district can keep hospitals running for ...

The Baltic Storage Platform (BSP) - a joint venture between Baltics leading renewable energy developer Evecon, French independent solar power producer Corsica Sole, and sustainable ...

The EUR100M facility, built by Estonian company Evecon alongside French partners Corsica Sole and Mirova, features 54 battery containers and represents continental Europe's largest battery storage ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional ...

The vanadium redox flow battery (VRFB) energy storage system market is experiencing robust growth, driven by the increasing demand for reliable and long-duration ...

Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.
