

Autorizan en Guatemala la capacidad de transporte del proyecto Tierra del Sol, de 75 MW As#237; la ha dispuesto la Comisi#243;n Nacional de Energ#237;a El#233;ctrica en una resoluci#243;n.

With solar capacity in Guatemala growing nearly 60% recently, this development indicates a strong push towards sustainable energy solutions in the region.

Guatemala's renewable energy sector is booming, with solar power generation leading the charge. As the country aims to reduce reliance on fossil fuels and stabilize its grid, energy storage systems are ...

Guatemala sumar#225; 413 MW de energ#237;a limpia con nuevas plantas solares que se encontrar#225;n en diferentes sectores del pa#237;s, desde la Costa Sur hasta el oriente.

The project includes over 168,000 solar panels and 240 inverters, and will connect to the national grid via the Jaguar Energy Substation. Approved through public tender in August 2023, the ...

Dutch clean energy developer MPC Energy Solutions has started construction of a 65MWp solar project in Guatemala, and plans to commission the project by mid-2025.

Solarpack, a Spanish renewable energy company, has secured authorization from Guatemala's Ministry of Energy and Mines to install and operate the 75 MW Tierra del Sol Solar Park ...

MPCES will use the debt facility to construct a 65 MWp solar PV plant San Patricio in Guatemala which will enter operations by late 2025. The innovative transaction with BAC allows ...

Relatively high levels of solar irradiance and large areas of cleared land give the country a strong potential for increased solar energy development. BMR Energy acquired the Green Solar project in ...

Con una capacidad total de 66 MWp, conformada por dos proyectos solares (ELGUA y MERSA), la adjudicaci#243;n contempla el dise#241;o, la construcci#243;n y la puesta en marcha de la planta, marcando el ...
