

Discover what makes a high-quality solar panel--from precise factory manufacturing to field-level performance and long-term EPC partnerships with Rayzon Solar.

Highfield Solar has reached financial close on a EUR65 million (&#163;56 million) project financing debt facility for a 93MWp solar plant in Ireland.

A new solar panel reaches up to 865 W, setting a historic record in power and efficiency for large-scale solar projects.

We expect the combined share of generation from solar power and wind power to rise from about 18% in 2025 to about 21% in 2027. In our STEO forecast, utility-scale solar is the fastest ...

We are a high-tech enterprise engaged in the manufacture and sale of crystalline silicon solar cells, including 5 mono-crystalline and poly-crystalline solar cells. Founded in 2007, our company is ...

We currently have over 1 GW of utility-scale wind, solar photovoltaic (PV) and energy storage projects within our portfolio. Highfield Energy completes a wide range of services to bring portfolios from ...

Highfield Solar has been active since 2014 and works exclusively within Ireland. We are focused on the development of ground-mounted solar PV energy parks with 282MWp now operational, 199MWp ...

Following the successful completion of a 282MWp portfolio now operational in Ireland, Highfield Solar has secured project financing to fund the construction and operation of an additional ...

Solar panel technology in 2026 is advancing fast with tandem cells, bifacial panels, smart systems, and higher efficiency designs.
