

Summary: Huawei's photovoltaic glass technology is transforming how industries harness solar energy. This article explores its applications, efficiency benchmarks, and why it's becoming a top choice for ...

The Directorate General of Trade Remedies (DGTR) has initiated an anti-dumping investigation on imports of textured tempered coated and uncoated glass originating in or exported ...

India imposes five-year anti-dumping duties on solar glass imports from China and Vietnam to protect domestic manufacturers.

The DGTR's investigation revealed a significant rise in solar glass imports from China, Vietnam, and other countries over the years.

According to EU data, while EU domestic photovoltaic installed capacity reached 56GW in 2023, Europe's total solar glass production capacity was less than 8GW. The remainder was ...

MLex Summary: EU tariffs on solar glass imports from China will face an expiry review of existing anti-dumping and anti-subsidy duties, the European Commission said.

Solar module prices and overall solar project costs are set to shoot up following the recent import duties on solar glass. Recently, the Centre imposed anti-dumping duty in the range of ...

The solar glass subject to anti-dumping duty includes all glass fulfilling the abovementioned technical and physical characteristics, whether it is used for photovoltaic modules, ...

In 2022, the Biden administration extended the Trump-era solar tariffs on all solar imports and two years later increased the tariff on Chinese solar goods specifically.

The Directorate General of Trade Remedies (DGTR) has proposed that the anti-dumping tariff on textured tempered glass (solar glass) imported from China be extended for another two years.
