In fact, less than half of workers (only 43% as of 2023) hired into the solar industry work in a role that requires bachelor's degree.

And as it expands in usage, there will be a growing need for more workers--manufacturing workers to make solar panels, construction workers to build power plants, solar photovoltaic installers to install ...

We are a high-tech enterprise engaged in the manufacture and sale of crystalline silicon solar cells, including 5 mono-crystalline and poly-crystalline solar cells. Founded in 2007, our company is ...
