

Longi photovoltaic panel production flow chart

Where are LONGi Solar panels made?

Longi is the world's leading solar manufacturer, consistently making Top-10 solar brands. With manufacturing facilities and sales offices in more than 150 countries and regions worldwide, including Asia, America, Australia, and the Middle East, Longi has established a strong reputation for its reliable and high-performance solar panels.

What types of solar panels does LONGi Solar offer?

LONGi Solar offers monocrystalline photovoltaic solar panels, as well as photovoltaic solar panels that can make use of a number of enhancements: bifacial panels, half-cut cells, gallium doping of wafers, PERC cells and Tiling Ribbon Technology. This is how the company presents its offer:

Who is LONGi Solar?

LONGi Solar is a leading manufacturer of solar panels and photovoltaic solutions, founded in China in 2000. Its specialties include the production of PERC (Passivated Emitter and Rear Cell) monocrystalline cells and bifacial panels. Its solutions are used in a variety of applications, including residential, commercial and large-scale installations.

Why should you choose LONGi Solar panels?

Longi is: Longi solar panels are a top choice for those seeking reliable and high-performance solar energy solutions. With their commitment to quality, innovative technology, and excellent customer service, Longi has established itself as a leading player in the solar industry.

LONGi Solar is a leading manufacturer of solar panels and photovoltaic solutions, founded in China in 2000. Its specialties include the production of PERC (Passivated Emitter and Rear Cell) ...

Longi is the world's leading solar manufacturer, consistently making Top-10 solar brands. With manufacturing facilities and sales offices in more than 150 countries and regions worldwide, ...

LONGi deeply practices the green and low-carbon concept and implements green manufacturing to achieve "win-win" economic and ecological benefits. LONGi has become a PV ...

LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.

Vertically Integrated Solar PV Value Chain LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the ...

Bifacial PV Bifacial modules collect solar energy from both the front and back side of the module, increasing the total power output per module. LONGi had scaled up high-volume ...

Longi photovoltaic panel production flow chart

Longi's Jiaxing Base is the first solar module plant to join WEF's Global Lighthouse Network, boosting smart manufacturing globally.

LONGi Solar has established strong strategic partnership with equipment and material suppliers, leading research institute and university, as well as customers, to advance development ...

The intricate solar panel manufacturing process converts quartz sand to high-performance solar panels. Fenice Energy harnesses state-of-the-art solar panel construction ... Researchers at LONGi ...
