

Al finalizar el año 2024 el Sistema Nacional de Transmisión (SNT), consta de 3, 745 kilómetros de línea de transmisión eléctrica en todo el territorio de Nicaragua. Con niveles de tensión de 69, 138, 230 kv y un total ...

**Introduction** Energy Situation Electricity Situation Key Problems Hampering Access to Modern Energy Services in Rural Areas Institutional Set-Up and Actors in The Energy Sector Policy Framework Further Information

Nicaragua has one of the lowest electrification rates in Central America, approximately 65% of the population compared to 99.2% coverage in Costa Rica. About 68% of the rural population still lacks access to electricity . In absolute terms, it is estimated that a total of about 340,000 dwellings (1.8 million people) in both urban and rural areas la...See more on energypedia .b\_imgcap\_alttitle p strong,.b\_imgcap\_alttitle .b\_factrow strong{color:#767676}#b\_results
