

## Off-grid solar container for wastewater treatment plants 150 feet

Our intelligent containerised waste water treatment plants offer a fast and effective above ground portable waste water treatment system solution for any sites, without the need for any existing infrastructure.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our portable wastewater treatment systems are engineered for maximum performance in every climate zone. We have successfully installed systems in over a hundred countries, from the Arctic to hot desert ...

Discover the world's leading foldable solar container with 40% higher energy density. Solarfold(TM) by Sunmaygo offers quick deployment & 70% lower costs than diesel.

Mobile Containerized Wastewater Treatment Unit that can be easily transported and quickly commissioned for temporary locations. It is the fastest and most practical solution to the wastewater problem, which is one of ...
