

## Outdoor electric awning with its own power supply

What are electric awnings?

Electric awnings are designed to provide shade and temperature control whilst providing a stylish addition to your house. We provides high-quality awnings which will protect your garden come rain or shine.

Why should you buy an Electric patio awning?

Enjoy your outdoor at all times, even during the hottest hours. Fitted with a sun sensor, your electric awning closes or opens automatically to ensure that your terrace is always comfortable, both at lunch and during long summer evenings. Enjoy the benefits of smart patio awnings! Somfy motors makes awnings electrically operable.

Do you offer Electric patio awnings & canopies?

You can choose from a wide variety of materials and patterns to make your awnings and canopies unique. And now, thanks to technological advancements, we also offer electric patio awnings. Thanks to a high-tech mechanism, you can use a remote control to easily control your retractable awnings.

What are Electric patio awnings made of?

The electric patio awnings are made using top-quality 100% Acrylic fabric with 6063-T5 grade aluminum cassette and arms. All Advancing patio awnings come with stainless steel components and high grade zinc/powder coatings to ensure durability for the long term.
