

In North Gaza, young Palestinian women are finding jobs installing solar panels with Anera -- providing the power to pump and clean much needed water for local Palestinian farmers.

In 2018, IFC structured an innovative debt financing package for the PRICO Solar project to promote the installation of solar panels on the rooftops of several buildings belonging to the Gaza Industrial ...

Massader invests in and leads large-scale strategic projects aimed at developing Palestine's natural resources and infrastructure like Noor Palestine Solar Program.

The developer, Hanna Gideon, confirmed that the project is on track to be completed within six months, underscoring the urgency and commitment to advancing Palestine's renewable energy agenda.

To maximize year-round solar energy production in Gaza, fixed solar panels should be tilted at a 27-degree angle facing south. This optimal angle ensures the panels capture the most sunlight ...

About 70 % of Palestinian families use solar water heaters due to the high expenses and the impact of Israel's implementation of solar water heating in homes. Additionally, WB and GS are ...

Tubas, West Bank, Palestine. 4th Feb, 2026. General view of solar panels in a field used by Palestinian farmers in the northern Jordan Valley, near Tubas, West Bank. Palestinian farmers ...

In 2016 and 2017, Israel approved about 100,000 solar panels to enter Gaza, according to researchers at the Hebrew University of Jerusalem. Satellite imagery soon showed solar arrays...

Even relatively simple installations of small solar panels have had an extraordinary effect on living conditions, as residents of Gaza often endure roaming blackouts and inconsistent power ...

In 2016 and 2017, Israel approved about 100,000 solar panels to enter Gaza, according to researchers at the Hebrew University of Jerusalem. ...

Even though Sun Box was established in November 2017, it wasn't until July 2018 that the first prototype of the affordable, easily installable solar energy system made it to Gaza.
