

Are solar panels a scam?

Scammers often advertise "\$0 down on owning solar panels" or "solar panels at no cost" but don't disclose that the homeowner won't own the panels. Lease and PPA agreements typically prevent homeowners from benefiting from most federal and state incentive programs and also have hidden fees and unfriendly financial terms.

How do I avoid getting scammed with solar panels?

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer. If something you see or hear from a salesperson sounds too good to be true, it probably is.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.

Are there any solar scams in Oklahoma?

An alumna of the University of Pennsylvania, Roxanne is now an Oklahoma homeowner, DIY enthusiast, and the proud parent of a playful pug. Solar scams can cost you thousands of dollars. You can avoid these nefarious solar cons with this helpful guide to what to look out for.
