

What makes a good solar salesperson?

To be an effective solar salesperson, you must know your audience. This means understanding their unique needs and concerns, as well as their level of knowledge about solar energy. If you're talking to a homeowner, for example, you'll need to understand their energy usage patterns and what motivates them to consider solar.

What does a solar salesperson do?

As a solar salesperson, you are not only selling a product but also educating your customers about solar energy. This means providing them with accurate and up-to-date information about the benefits of solar, how it works, and what their options are. To educate your customers effectively, you can follow these tips:
