

Jia Mao provides innovative photovoltaic floor tiles. Our durable, walkable solar panels are perfect for public spaces, patios, and driveways, turning any surface into a power source.

Onyx Solar revolutionizes sustainability with an advanced photovoltaic walkable floor, seamlessly integrating renewable energy into functional surfaces.

PVFloor provides both energy saving and an aesthetic solution with its innovative energy-generating solar panels used as floor covering. With its durable and efficient structure, PVFloor can be used in ...

Factories and warehouses utilize photovoltaic tiles on rooftops and flooring to generate substantial amounts of renewable energy. This helps reduce reliance on grid power and lowers ...

Our Brands By combining the expertise, experience and resources of industry leaders in the metal forming market, Nidec Press & Automation has established a single source solution for machinery, ...

This solution makes it possible to generate clean energy from areas that would otherwise remain passive, like a conventional floor. The tiles, walkable and R11-certified, ensure safety and durability ...

Photovoltaic floor tiles combine solar energy generation with durable paving materials, offering sustainable energy solutions for urban spaces, public areas, and smart cities, while reducing ...

Discover the groundbreaking world of PUREBIPV with our cutting-edge technical pavement solution. Developed by PUREBIPV, these PV pavers revolutionize outdoor spaces by seamlessly integrating ...

The solution for fixing to the ground ensures easy inspection, guarantees safety performance and excellent aesthetic results, as well as allowing effective disposal of rainwater, the technical passage ...
