

Flexible and easy installation of a gradient through prefabricated tapered slabs. We offer you ample insulation products and accessories for creating the perfect solution, fit for your specific project.

Precast Concrete Foundations: Concrete is poured and cured in a factory environment and then transported to the jobsite for installation. Suitable for flat roofs, low-slope roofs, or ground-mounted systems, ...

Whether you have a commercial building with a flat top roof, a home with a flat or sloping roof, or even a roof on a historic building, if you want to install solar arrays to generate renewable energy, concrete ...

Several recent advancements in photovoltaic construction signal that energy-generating concrete could play a larger role in the future of architecture. Two cases in particular, stand out in their recent contributions to the ...

Precast concrete ballast footing used to securely position solar ...

Installing PV panels on reinforced concrete roof slab is a common way to harvest solar energy on existing buildings. Furthermore, ballasted PV systems have a wide range of acceptance among property ...

Precast concrete ballast footing used to securely position solar panels and related mounting hardware and help prevent movement and overturning of solar panel systems.

- o Designed and manufactured at our Tullamore facility, this solution is tailor-made to enhance solar panel placement and stability on an appropriate flat roof surface.

Concrete roofs are extremely durable and can last for decades, making them an ideal platform for a solar panel system. Additionally, concrete roofs are often flat or low-sloped, which can make them ...

How Does Photovoltaic Concrete Work? The key to the functionality of photovoltaic concrete lies in the integration of photovoltaic cells within the concrete matrix. These cells are able to harness sunlight and ...

From initial design through final installation, EZ-CRETE delivers high-performance precast foundation solutions that make solar canopy projects easier, faster, and more dependable.
