

It allows up to 70% of visible light to pass through while directing the Infrared and Ultraviolet light into solar cells embedded in the window frames! Our CLEAR Solar Photovoltaic Window Glass can be ...

It is a specialized type of glass that can help improve the energy efficiency of a building and make it more comfortable for its occupants. In this article, we will explore the benefits, types, and ...

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not just choosing glass; you're choosing a future where ...

Solar windows, also known as solar control glass, harness sunlight to generate renewable energy while maintaining transparency, reducing heat, and minimising glare.

Customized ITO / FTO conductive glass plays a crucial role in scientific experiments, offering excellent conductivity, transparency, and stability. Ideal for photovoltaics, sensors, and analytical instruments.

Crafted with heat-treated safety glass, our photovoltaic glass provides the same thermal and sound insulation as traditional options, flooding spaces with natural light. Perfect for facades, curtain walls, ...

The robust construction of solar glass windows means they require minimal maintenance compared to traditional solar panels. They are designed to ...

In hot conditions or for building with high internal loads, solar control glass is used to minimize solar heat gain. It allows sunlight to pass through a window while radiating and reflecting away a large amount ...

Solar windows, also known as photovoltaic windows or solar glass, are a type of building-integrated photovoltaics (BIPV) technology. Designed to look like windows and perform like solar...

The robust construction of solar glass windows means they require minimal maintenance compared to traditional solar panels. They are designed to withstand extreme weather conditions, ...

Single building installation can avoid 2.2 million miles of CO2 vehicle pollution; 12-times more than solar. When modeled for buildings, engineered to outperform rooftop solar by 50-fold: Apply to acres of ...
