

What is a modular container home?

A modular container home is a residential dwelling constructed using repurposed shipping containers. These containers are transformed into customizable living spaces that can be designed to suit specific style and functional requirements. Are modular container homes durable? Yes, modular container homes are highly durable.

What is a container home?

Through innovative insulation techniques, latest building materials and expertise built up over years, the container home is now a beautiful, sustainable way of building your dream house. In the same way as Lego fits together, your home can be designed to your specifications with your finishes and interiors.
