

Specifications of 530W photovoltaic panels

Comprehensive guide to 530W solar panels. Compare top models from JA Solar, Jinko, Canadian Solar & more. Includes performance data, pricing, and installation tips.

Learn about the Topsun 530W solar panel. Explore solar panel efficiency, warranties and more.

Its 530W output and N-type cell technology provide reliable performance across various conditions. The bifacial design can be particularly advantageous in environments with high albedo or when used in ...

Detailed profile including pictures, certification details and manufacturer PDF.

By exploring the technical specifications of Jinko's 530W solar panels, it becomes evident that these high-powered modules offer an ideal solution for harnessing clean and renewable solar energy.

- 530W N-type TOPCon solar panel with dual-glass bifacial design, 23.85% max efficiency, and extended durability. Ideal for residential, C& I rooftops, and utility-scale PV projects.

Optimize your commercial solar system with the Silfab SIL-530 XM Bifacial panel, engineered for maximum energy yield.

Greentech Renewables supplies Silfab Solar 530W 132 Half-Cell N-Type Silver Bifacial Solar Panel, SIL 530 XM and other pre-qualified solar equipment from Silfab Solar through our extensive network of ...

The specifications and characteristics contained in this datasheet may deviate slightly from our actual products due to the product developments and uncertainty of measurement devices. The ...

All specifications are in accordance with standard EN 50380. Color differences of the modules relative to the figures as well as discolorations of/in the modules which do not impair their proper functioning are ...
