

Are Yingli solar panels good?

Happy end is in sight: we happily report that the PV modules from the Chinese company panels are good once again and you'll learn more about them in our Yingli Solar panels review. Yingli Solar was founded in 1998 and is headquartered in Baoding, China. It quickly became one of the top players on the market.

Who makes Yingli solar panels?

Yingli Solar is one of the oldest renewable energy manufacturers and has been in business since 1998. The Yingli business model covers the entire production process of the panel. From the raw materials that make silicon solar cells, or ingots, to the backsheets, Yingli strives to ensure that each solar panel is high-quality.

Does Yingli Solar offer bifacial solar panels?

Yingli Solar offers panels for all kinds of projects: there are panels for making a home system and there are high-output PV modules for building a solar farm. Chinese engineers seem to really like bifacial modules: half of Yingli Solar products are panels with an active rear side which are called Panda.

How much do Yingli solar panels cost?

Yingli's solar panels will cost you anywhere between \$2.50 and \$3.10 per watt. For reference, an average 7kW solar system can cost you about \$21,000 before the federal tax credit. You can expect Yingli Solar panels to be slightly below the average because they are known as a less expensive brand.

We choose PV panels manufactured by Yingli because this Chinese company can provide PV panels at very cheap price. Thanks to their prices, we can save lots of cost. -- Sugimoto, APEC ...
